## PROFILE

Highly motivated, newly certified full stack software engineer with enthusiasm for building intuitive user interfaces seamlessly integrated with backend services. Able to independently write high-quality, extensible code on well-scoped tasks and seek guidance as needed. Team player focused on delivering business value for customers and creating a flow of value into production through ongoing experimentation and iteration. Strongly committed to sharing knowledge, learning new skills, and becoming a high-performing, impactful developer.

## SKILLS

Ruby on Rails | PostgreSQL | JavaScript | React | Redux | Git | HTML | CSS | SASS | Photoshop | Illustrator | Node | MongoDB | Express | Mongoose | Firebase | REST API |

## PROJECTS

**Archivo del Santo** - Github | Live Site
*A MERN stack streaming platform for the films of Luchador El Santo*
- Crafted an elegant frontend using React Hooks to easily manage components and state
- Implemented styled components and advanced CSS/SASS techniques including mixins, variables, and animations
- Followed industry standards to ensure website has a responsive design and is scalable

**StoriTale** - Frontend | Backend | Demo Video
*A story sharing platform built with a React - Redux frontend and Rails API backend*
- Created a Rails API with robust resources and polymorphic relationships
- Designed a responsive application using Material UI components as well as custom CSS
- Crafted a platform to share interesting stories with followers

**Hey, Weather** - Github | Live Site
*A Node application for viewing the weather*
- Utilized external APIs for aggregating the weather and coordinates of the user's input
- Exercised clean code by using modern ES6 syntax and shortcuts
- Designed user experience with custom CSS and HTML

## EXPERIENCE

**Hyde Park Bar & Grill**                                                          Austin, Texas
*Bartender*                                                                 03/2018 - 03/2020
- Oversaw and organized the ordering of inventory
- Prioritized and ensured customer satisfaction through proper execution and presentation of individualized orders

**Big Frog**                                                                      Austin, Texas
*Graphic Designer*                                                          06/2016 - 03/2018
- Collaborated with external print vendors to ensure detail and delivery accuracy
- Created customized orders for clients by working with them on their vision and bringing it to fruition

**Best Buy**                                                                      Austin, Texas
*Sales Associate*                                                           10/2013 - 05/2016
- Recognized as a consistent President's Club Associate for maintaining and achieving consistent retail sales within the top 5% of the company
- Actively identified the needs of customers in order to accurately recommend products to them, ensuring customer satisfaction and trust
